Diane:

No problem, I was just wanting to know how things were or were not progressing. Once you get some data it would be nice to know. Just email me.

Thanks

Subject: RE: Sample Status

We're analyzing the samples today after performing TCLP. Can you give me about an hour to give you some results? We had to redo cleanups for chlordane and everything had to be reanalyzed.

Subject: CES: Sample Status

Christy/Diane:

Can you give me a status of the samples that I sent to you guys?

Thanks for your help.
